

HEAVENLY FALL

Wondering how it all

Winded us in this fall

Vows of silence and secrecy

Internal ties of the mindlessness

Suffering from the pain

Enjoying the existence of heavenly fall

All the darkening hours have

Winded us in warm

Suffering from the life that was

Given to us not knowing

The things we have wanted

Given it for free to

Return with dues

Redemption of honesty

Confessions from the concealed memory

Enticing, making you feel

The lost

Prolonging regret and desire

Divine and infernal

Moments of temptation

Making you realize

Suffering from the pain

Enjoying the existence of heavenly fall

All the darkening hours have

Winded us in warm

Suffering from the life that was

Given to us not knowing

The things we have wanted

Given it for free to

Return with dues

Suffering from the pain

Enjoying the existence of heavenly fall

All the darkening hours have

Winded us in warm

All the days still left there are suffers

All the days will make us more stronger

All the days still left

Will make us true

Sometimes the truth wears a mask - what will they say?

When they see, they see

What's real...
